

Introducing Thermo Fisher Scientific's new service tiers for clinical ancillary management

Discover a more flexible way to secure clinical ancillary supplies and consultative services, ensuring on-time delivery for every trial, regardless of size

The clinical ancillary management business, part of our clinical trial division, is thrilled to announce big changes to benefit our customers. With our new clinical ancillary service model offering greater flexibility and cost efficiency, we can support clinical trials of every shape and size. When others can't deliver, rest assured that Thermo Fisher Scientific can.

What's new?

- ✓ **Ancillary supply sourcing and global distribution services:** Tailored for every trial
- ✓ **Adaptable service levels:** Accommodate small and large clinical trials with cost flexibility
- ✓ **Product consultation services:** Guidance for supply planning and sourcing strategies
- ✓ **Global network licensing:** Trusted regulatory services to ensure global compliance
- ✓ **Product solutions services:** Ensuring the best-fit products are selected for trial use
- ✓ **Experienced team of professionals:** Ensuring timely delivery and risk mitigation
- ✓ **Unmatched supplier network:** Ancillary supplies, lab equipment, and medical devices
- ✓ **Flexible equipment sourcing options:** Now offering rental options for diverse needs
