

## Tokyo, Japan

### Facility facts:

Opened: 2009  
 Contact Info: 1-12-10 Shinkiba, Koto-ku  
 Tokyo 136-0082, Japan  
 Tel: +81 3 6457 0250

### Unique Offering:

Our highly experienced local Tokyo team has an exceptional commitment to quality, deeply instilled ethics of personal responsibility and local expertise, with a true appreciation of cultural nuances. Supported by our network of Asia Pacific facilities, including Beijing and Suzhou in China, India, Korea and Singapore, we provide access to a global network with a local presence.

We work closely with clinical trial Sponsors to define the best distribution model for each study, realizing cost and performance efficiencies across the entire Asia Pacific supply chain.

### Offerings:

- Importation / Exportation services including tax and duty payments, and customs clearance
- GMP storage at controlled ambient (15°C to 25°C), refrigerated (2°C to 8°C), frozen (-15°C to -25°C), ultra-frozen (-80°C) and cryogenic (<-150°C)
- Secondary packaging at ambient, refrigerated and frozen temperatures
- Cold chain labeling, expiry date relabeling
- Comparator sourcing
- Clinical Ancillary Materials sourcing / management
- Clinical Supply Chain Optimization service
- Pick & Pack, and Distribution services that include temperature management and monitoring for local, regional and international shipments
- Clinical supply returns / storage / destruction service

## Clinical Storage and Packaging Capabilities

Storage Capacity		Capabilities / Services
Controlled Ambient	10,997 sq. ft. (1,022 sqm)	<b>Secondary Packaging</b> <ul style="list-style-type: none"> <li>• Four (4) secondary packaging production rooms</li> <li>• Packaging in ambient, refrigerated and frozen environment</li> <li>• Cold chain labeling</li> <li>• Expiry date relabeling</li> <li>• Kit assembly</li> <li>• Blinding / randomization</li> </ul> <b>Distribution</b> <ul style="list-style-type: none"> <li>• Comparator and Ancillary sourcing &amp; management</li> <li>• Clinical Supply Optimization service</li> <li>• Import / Export documentation support, customs clearance, domestic &amp; international transportation management</li> <li>• Returns reconciliation, storage and disposal</li> </ul>
Refrigerated (2°C to 8°C)	77,641 cu. ft. (2,199 m³)	
Frozen (-15°C to -25°C)	10,078.8 cu. ft. (285 m³)	
Frozen (-30°C)	651 liters	
Frozen (-80°C)	1,515 liters	
Cryogenic (<-150°C)	18,293 cu. ft. (518 m³)

## **From molecule to medicine: An integrated partner for every step in your drug development journey.**

From the earliest stages of development to final distribution to your patient, together, we can make an impact. With more than 65 facilities across 25 countries, Thermo Fisher Scientific pharma services provides end-to-end capabilities across all phases of development, including API, biologics, viral vectors, cGMP plasmids, formulation, clinical trials solutions, logistics services and commercial manufacturing and packaging. We give pharma and biotech companies of all sizes instant access to technical experts across the Americas, Europe, Asia and Australia. Through our Quick to Care™ program, we provide drug development and clinical services that are tailored to fit your unique drug development journey.

**Discover the power of our global network.**
