

# Summary of capabilities

## Rockville, Maryland, US

### Overview:

The Rockville, MD site is the premier choice for customers seeking comprehensive services beyond standard repository functions such as receiving, storing, and shipping products. This facility offers additional services, including laboratory and pharmacy capabilities, production, batch record management, ambient pallet storage, dedicated transportation teams, and just-in-time secondary labeling design and printing.

Facility facts		Specialized capabilities
Opened:	1997	<ul style="list-style-type: none"> <li>• Importation/exportation services</li> <li>• Direct-to-patient pharmacy operation</li> <li>• GMP storage at controlled ambient (15°C to 25°C), refrigerated (2°C to 8°C), frozen (-20°C to -80°C), and cryogenic (-150°C) temperatures</li> <li>• Secondary packaging and sample collection kits per client specification</li> <li>• Comparator and clinical ancillaries sourcing and management</li> <li>• Laboratory services including aliquotting, tissue, buffy coat, and PBMC processing, DNA and RNA extractions, and qPCR, array, and NGS capabilities</li> <li>• Returns/certified destruction service</li> <li>• Site sustainability efforts include single-stream recycling</li> </ul>
Audited:	FDA, DEA, MD Board of Pharmacy	
Facility size:	90,000 sq. ft.	
Contact info:	14665 Rothgeb Drive Rockville, MD 20850 USA Tel: +1 301 315 8460	

### Clinical storage and packaging capabilities

Storage capacity		Capabilities and services
Controlled ambient (15°C to 25°C)	57,975 cu. ft. (1,642 cu. m.)	<p><b>Packaging</b></p> <ul style="list-style-type: none"> <li>• Secondary packaging and sample collection kits per client specifications</li> <li>• Just-in-time packaging and labeling</li> </ul> <p><b>Distribution</b></p> <ul style="list-style-type: none"> <li>• Comparator and clinical ancillary materials sourcing and management</li> <li>• Reusable shipper program</li> <li>• Import/export support</li> <li>• Importer of record (restricted to government contracts)</li> <li>• Consulting services</li> </ul> <p><b>Laboratory and other services</b></p> <ul style="list-style-type: none"> <li>• Aliquotting, tissue, buffy coat, and PBMC processing, DNA and RNA extractions, and qPCR, array, and NGS capabilities</li> <li>• Direct-to-patient pharmacy operation</li> <li>• Production of collection kits</li> </ul>
Scheduled drug storage	2 pallets	
Refrigerated (2°C to 8°C)	20,275 cu. ft. (574 cu. m.)	
Scheduled drug storage (2°C to 8°C)	50 cu. ft. (1.4 cu. m.)	
Frozen (-20°C)	19,500 cu. ft. (552 cu. m.)	
Ultra-frozen (-70°C)	25 reach-in units	
Ultra-frozen (-80°C)	422 reach-in units	
Cryogenic (-150°C)	96 LN2 tank units	

# From molecule to medicine

## An integrated partner for every step in your drug development journey

Thermo Fisher Scientific provides industry-leading pharma services for drug development, clinical trial logistics, and commercial manufacturing through our Patheon™ brand. We partner with customers in the pharmaceutical, biotech, and life sciences industries as their trusted CDMO to deliver medicine to patients faster. With more than 60 facilities around the world, we provide end-to-end pharma services across all phases of development and commercial manufacturing, including API, oral solid dose, biologics, cell therapy, mRNA, viral vectors, formulation, clinical trial solutions, logistics services, and packaging. We couple our scientific and technical excellence in these areas with a strategic partnership to provide customers of all sizes access to a global network of facilities and dedicated experts across the Americas, Europe, Asia, and Australia. Through our integrated service offerings, we provide tailored solutions to fit your unique drug development journey, accelerating your time to market.

**Discover the power of our global network.**
