

Singapore

Overview

Our highly experienced local Singaporean team is supported by our network of Asia Pacific facilities, including Beijing and Suzhou in China, Japan, India, and Korea, providing access to a global network with local presence.

We work closely with clinical trial sponsors to define the best distribution model for each study, realizing cost and performance efficiencies across the entire Asia Pacific supply chain.

Facility facts:		Offerings:
Opened:	2015 (Original facility opened in 2001)	<ul style="list-style-type: none"> • Importation/exportation services including serving as Importer of Record, tax and duty payments, and customs clearance • GMP storage at ambient, controlled ambient (15°C to 25°C), refrigerated (2°C to 8°C) and frozen (-15°C to -80°C), as well as ambient and refrigerated controlled drug storage, and beta-lactam antibiotic storage • Secondary packaging at ambient or refrigerated temperatures, as well as light-sensitive secondary packaging • In-house labeling, including cold chain, and expiry date labeling/relabeling • Comparator sourcing • Clinical ancillary management • Pick and pack and distribution services that include temperature management and monitoring for local, regional, and international shipments • Clinical supply returns/storage/destruction service
Audited by:	Health Sciences Authority, Singapore

Singapore clinical storage and packaging capabilities

Storage capacity		Capabilities and services
Ambient	9,000 sq. ft. (836 sq. m.)	Equipped with <ul style="list-style-type: none"> • Six (6) secondary packaging and labeling production rooms • Packaging of light-sensitive materials • Packaging in refrigerated and frozen environments • Cold chain labeling • Expiry date labeling/relabeling • Just-in-time labeling • Re-cartoning and medical kit assembly Distribution <ul style="list-style-type: none"> • Comparator sourcing • Clinical ancillary materials sourcing & management • Import/export permit application, Importer of Record, customs clearance, pooling of supplies, domestic and international transportation management • Returns reconciliation, storage, and disposal, including certified destruction services
Controlled Ambient (15°C to 25°C)	26,000 sq. ft. (2,416 sq. m.)	
Refrigerated (2°C to 8°C)	12,000 sq. ft. 1,115 sq. m.)	
Frozen -20°C	2,600 sq. ft. (242 sq. m.)	
Ultra-frozen	3 units at -30°C 8 units at -80°C	
Controlled Drug (Ambient)	110 sq. ft. (10 sq. m.)	
Controlled Drug (Refrigerated)	105 sq. ft. (9.8 sq. m.)	

From molecule to medicine

An integrated partner for every step in your drug development journey

Thermo Fisher Scientific provides industry-leading pharma services for drug development, clinical trial logistics, and commercial manufacturing through our Patheon™ brand. We partner with customers in the pharmaceutical, biotech, and life sciences industries as their trusted CDMO to deliver medicine to patients faster. With more than 60 facilities around the world, we provide end-to-end pharma services across all phases of development and commercial manufacturing, including API, oral solid dose, biologics, cell therapy, mRNA, viral vectors, formulation, clinical trial solutions, logistics services, and packaging. We couple our scientific and technical excellence in these areas with a strategic partnership to provide customers of all sizes access to a global network of facilities and dedicated experts across the Americas, Europe, Asia, and Australia. Through our integrated service offerings, we provide tailored solutions to fit your unique drug development journey, accelerating your time to market.

Discover the power of our global network.
