OUR CLIENTS

OUR IMPACT

OUR SERVICES

111
NDA approvals from 2012-2021
 More than the next three
 leading CDMOs combined

We manufacture
100+
dosage forms

196
new oral solid dose
development projects
 in 2021

300+
small and large molecule
projects in 2011

20+ years
 of cGMP manufacturing
 experience **for cell and**
gene therapies

7,100+
clinical trials
 supported in 2021

Innovative solutions

Quick to Care™ end-to-end offering
 Quick to Clinic™ for small and large molecule
 mysupply Platform
 Quadrant 2™ predictive modeling
 Decentralized clinical trials
 Flexible manufacturing solutions
 Simplified supply chain

Small molecule services

Drug substance development, clinical,
 and commercial manufacturing
 Drug product clinical and commercial
 manufacturing for oral solid doses
 Drug product development for oral solid doses

Large molecule services

Drug substance development, clinical, and
 commercial manufacturing
 Drug product clinical and commercial
 manufacturing for sterile injectables
 Drug product development for sterile injectables

Advanced therapy solutions

CGMP plasmid DNA development and
 manufacturing
 mRNA therapeutic services
 Cell and gene therapy clinical supply chain
 Viral vector development and manufacturing
 Cell therapy development and manufacturing

Clinical trial services

Clinical supply optimization
 Clinical ancillary management
 Direct-to-Patient services
 Packaging, storage, and labeling
 Distribution and logistics
 Comparator sourcing

Together, we can make a difference. Are you ready? [Contact us today.](#)
