### Area attractions

- [The parliament building, Bern](#), the Parliament building, also referred to as the federal palace, was built between 1894 and 1902 according to plans drawn up by the architect Hans Wilhelm Auer. It was officially inaugurated by the United Federal Assembly at a ceremony on 1 April 1902. The parliament building stands between the Federal Palace's West wing (built 1852-1857) and East wing (built 1888-1892). It is the final element and architectural highlight of the federal palace project. 95% of the materials used were sourced from within Switzerland. The symbolic intention was to illustrate the cultural and material diversity of the country and of its people. For the first time in its over 100-year history, the parliament building underwent a thorough renovation between 2006 and 2008, which also involved substantial structural alterations.
- [Zytglogge \(clock tower\)](#), Bern Bern's typical streets, lanes and buildings have exciting stories to tell, and in the midst of them all in the old Town one of the city's best-known landmarks stands high above the rest: the Zytglogge (clock tower). Once a city gate, the clock tower now attracts spectators from all over the world.
- [Rose Garden, Bern](#), the Rose Garden is one of the most beautiful parks in Bern and offers an unrivaled view over the rooftops of the historic old Town, the Monster (Minster) and the loop in the Aare river.
